

REDEPT

RE Department

Curriculum Intent

Our primary vision for ourselves and the students is

“to realise our true value as children of a God who loves us”

Our RE department reflects the Catholic nature of the school with the purpose of developing a dignity and respect of our true selves that comes with academic learning. Our curriculum exists to encourage robust scholarship through a rigorous, challenging and ambitious curriculum for every pupil. Our goal is to shape and send out young people to engage positively within a diverse Britain.

Our deep and broad curriculum is in line with the Bishops Conference Curriculum Directory and the Catechism of the Catholic Church. The curriculum and staff promote open minded and open hearted pupils who learn to live out the Catholic character and identity of the school, supported by the Ullathorne Way Values and example of Christ.

We believe that the department follows the example and teachings of Jesus to serve our students and ultimately give them the knowledge and skills to be positive participants in our future society. We are a team of staff who are role models of the values we teach; integrity, faithfulness, morality, respect and tolerance.
