

Eloquent and Grateful

Floodland by Marcus Sedgwick

In a not too distant alternative reality, Norwich is an island and England is a region of water, bogs and mud. Can heroine Zoe escape the rising tide of danger and find her parents before all is lost? A startling vision of what the realities of climate change might bring.

Watch Hans Rosling's video on the relationship between life expectancy and income.

Then use the Gap Minder website to research your own development indicators for three countries
<http://www.gapminder.org>

Attentive and Compassionate

Listen to one of the Royal Geographical Society podcasts and take at least 10 notes on what you found - <https://www.rgs.org/schools/resources-for-schools/ask-the-geographer-podcasts>

Create a piece of artwork that represents the damage humans are causing to Earth. It could be digital or a physical piece of artwork such as a model, painting, logo etc.

Wise & Curious and Faith-filled & Prophetic

Research a recent geographic event that happened in the news and identify the social, economic and environmental issues which were presented as a result of the event.

Visit Draycote reservoir and list some of the features you see which have been put in place to protect the area and list the uses and benefits of this reservoir for both people who live in the local area and also for the tourist visiting.
