Write a poem like those of Wilfred Owen or any of the War Poets from world war one – try to include your literary techniques learnt in English alongside your knowledge gathered from History lessons and homework.

Wise & Curious and Faith-filled & Prophetic

Interview grandparents and members of your family, use this research to plot a family tree and see which of your ancestors were alive during which events we have studied. Can you find out what they were upto during world war one or the 1930s?

Visit Coventry Cemetery and use the graves to plot some research about the numbers of losses during the world wars. Can you do any research into these families or individuals – what jobs did they do before they left for war? Where did they live? Where did they fight and did they return? Using the war graves website may also aid your research.
