

## Year 12 Textiles – Bridging Project

### Project: Organic Forms/Found Items

The summer work is to be completed to a high standard. Remember this is a step up from GCSE so you must try to make sure that you put time and effort into making this the best you possibly can.

#### Task 1

Complete a mind map, writing down all your possible ideas on the topic Organic Forms/Found Items What do you think of when you think of the theme what textile techniques can you do, do you know any artists or designers inspired by organic forms

#### Task 2

You also need to complete your own photography of Organic Forms, take lots of photography of various types. Take some photos close up, this will give you details and ideas for designs further into your project.

#### Task 3

As well as taking photo's of Organic Forms, you can also draw some sketches and some observational drawings. These do not need to be perfect drawings. They can be rubbings, sketches, layers of colour. Look at the following link for some ideas:
